Target version:				

Description

Subtlext::Tray has a focus method, which could be useful to access them using Grabs, if tray icons expected key events... and they don't.

```
10:31:23   @unexist   fauno: That is what I told you to your request of focussing a tray – this is
 pointless. Tray icons normally don't expect focus without click.
10:31:45        *   fauno remembers
10:33:18   @unexist   I can try to add a click method like: Subtlext::Tray['foo'].click
10:33:57      fauno   mouseless freaks will remember your name, unexist :D
```
