

subtle - Bug #166

Equality for Subtext's classes

12/23/2010 01:58 PM - Mon Ouïe

Status:	Fixed	Start date:	12/23/2010
Priority:	Urgent	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Several classes in Ruby-Core and stdlib (among which Hash, Set, and some methods of Array) rely on #eq!? being implemented (and meaning the two objects have the same value and class). It'd thus be nice if this method was implemented in Subtext's classes, which is not the case yet.
