Description

Over time, people decided to fork the mpd sublet instead of contributing changes to it.

So I decided to take all four sublets and merge them (using mpd as the reference), making new features optional by means of config settings.

Attached are the new .rb as well as the new .spec file.

- File mpd.rb added

- File mpd.spec added

Fixed the positions in :mouse_down to more accurately reflect the icons' positions. Also, removed some debugging output and the duplicate "stop" in the valid array in configure.

Note: You'll need the icons from the current mpd sublet in order to build this version. Easy way to get them if you have the mpd sublet installed already: cp -r ~/.local/share/subtle/icons .

#2 - 05/23/2011 05:00 PM - Douglas Freed

- File mpd.rb added

- File mpd.spec added

Fixed the handling of format strings so that empty fields don't retain their old values. Added the blank_text configure option to choose what is displayed instead. It defaults to "n/a"
