

subtle - Bug #306

Clock sublet stops refreshing (randomly?)

10/24/2012 07:49 PM - Rasmus Steinke

|                                                                                                                                                                                                                   |          |                        |            |

| <b>Description</b>                                                                                                                                                                                                |          |                        |            |
| Every now and the time in clock sublet is very far behind real time, sometimes a whole hour or more. reloading subtle fixes it, but it still is annoying. 'date' command in a terminal shows the proper time tho. |          |                        |            |
